Horizon 2020

Horizon 2020 project CHARITY develops an open-source framework and tools for enabling next-gen applications allowing immersive communication based on the intelligent use of network resources.

The project will prove the feasibility of its solutions via three use cases:

## UC1 Real-time Holographic applications

Holographic Concert

Holographic Meeting

Holographic Assistant

## UC2 Immersive virtual training

VR Medical Training

VR Tour Creator

## UC3 Mixed Reality interactive application

Manned-unmanned Operations Trainer

Collaborative Gaming

## Charity Consortium

The CHARITY consortium includes 15 partners from 10 countries, including 5 partners from the industry, 2 academic and/or research organization partners and 8 SMEs, which together bring to the project the full range of expertise to realize its ambitious objectives.
